Hi, my name is Lou Ann Hamilton and in this segment we will discuss readmission stipulations.

When you are readmitted, there are readmission stipulations you must meet.

You will return on academic probation. You must have a minimum of a 2.0 GPA the first semester back, or you will be dropped again.

You must also not receive six credit hours of F’s, or you will be dropped again.

You may take no more than 15 credit hours for a fall or spring semester, or no more than 9 hours for a summer session.

When returning, you will be dropped during a summer or regular semester after returning if you do not meet these requirements.

Because readmitted students return on probation, you must also meet university minimum GPA requirements for your semester classification. For example, if you are a sixth semester student your overall GPA needs to be a 1.8.
